VEINTECTOR

A VEIN DETECTING DEVICE WITH TOURNIQUET

Improve patient satisfaction and reduce blood drawing time.

FEATURES AND BENEFITS

- **Compact** - easy to store or place on phlebotomy tray.
(193mm x 70mm x 32mm)
- **Portable** - light weight and easy to handle.
- **Easy to read** - can be used in both well lit or dark environments, and on all skin types.
- **Faster** - identify patient veins faster without multiple sticks.
- **Cost Effective** - reduces tube waste.

Veintector is easy to attach, comfortable for the patient, and improves the Phlebotomist's ability to find veins.
